dan.ruksujarit@bayes.city.ac.uk | [in linkedin.com/in/thiraphat-ruksujarit](https://www.linkedin.com/in/thiraphat-ruksujarit) | github.com/DanRRR

EDUCATION

Bayes Business School, City, University of London

September 2025 - Present

MSc Quantitative Finance

London, United Kingdom

- Student Representative for the MSc Quantitative Finance cohort (MTF, FM, QF)
- Stochastic Modelling in Finance, Asset Pricing, Derivatives, and Foundations of Econometrics

University of Leeds

September 2021 - July 2024

BSc Computer Science (Hons)

Leeds, United Kingdom

- Classification: Upper Second Class Honours (2:1)
- Machine Learning, Artificial Intelligence, Cryptography, Adaptive Intelligence Systems, and Information Visualisation

PROFESSIONAL EXPERIENCE

WorldQuant BRAIN

May 2025 - Present

Part-Time Research Consultant

Remote

- Designed and simulated over 20,000 alphas across multiple universes and regions using the WorldQuant BRAIN platform, achieving Sharpe ratios above 1.25 for Delay-1 and 2.0 for Delay-0 alphas, with over 60 active alphas in the signal pool
- Conducted weekly meetings with senior researchers to review progress, optimise the simulation pipeline, and develop strategies to address challenges
- Engineered a custom multi-simulation pipeline integrating the WorldQuant BRAIN API to automate alpha submission, result polling, and performance logging
- **Ranked 2nd in Thailand**, placing in the **top 1% globally** (411th out of 80,000+ teams) in the International Quant Championship (IQC) and subsequently selected as a Research Consultant after advancing to the next stage

Cambridge Academy of English

June 2019

Student Assistant

Cambridge, United Kingdom

- Organised engagement activities for groups of 15 – 30 international students aged 10 – 17, encouraging participation, teamwork and cross-cultural communication
- Reviewed internal workflows under senior staff supervision, identifying inefficiencies and recommending improvements to scheduling and organisation

PROJECTS

Market State Forecast Machine Learning Competition (Wunder Fund)

December 2025

Tools: [Python, TensorFlow, Numpy, Pandas]

- Competed in a ML forecasting challenge predicting high-dimensional market state vectors using LSTM, achieving an Out of sample R^2 of 0.37 versus top of leaderboard 0.40

Stock Decision Support using Candlestick patterns and Machine Learning Methods

May 2024

Tools: [Python, TensorFlow, Scikit-learn, Matplotlib, Keras, NumPy, Pandas, Vectorbt]

University of Leeds

- Conducted independent research on integrating technical analysis and machine learning in financial trading, implementing Long Short-Term Memory (LSTM) models with candlestick classification and financial engineering techniques for predictive analysis
- Improved model accuracy through hyperparameter optimisation and experimentation with LSTM variants, following hybrid Agile-Waterfall principles and Git-based version control

ADDITIONAL INFORMATION

Bloomberg Trading Competition

September 2025 - November 2025

Participant

London, United Kingdom

- Competed in a 5-week Bloomberg Trading Challenge as a part of a 5-member team, developing earnings-based trading strategies and executing long-only equity trades using the Bloomberg Terminal

University of Leeds Muay Thai Society

September 2023 - July 2024

Secretary

Leeds, United Kingdom

- Elected to manage society operations and lead marketing and engagement initiatives, increasing membership by 65% year-on-year
- **Won Gold** in the 57.1 – 60 kg male category at the Muaythai GB University Championships (British Nationals)

SUMMARY

Proficient: Python, C, SQL, Bash. **Intermediate:** C++, Java, JavaScript, HTML/CSS.

Language: English (Fluent), Thai (Fluent)
